

**Bryan Sartin**  
**Director, Investigative Response**  
**Verizon Business**

Bryan Sartin is responsible for customer-facing incident response, computer forensics, IT investigative work, and litigation support. Sartin brings more than 15 years experience in the security arena to this role, providing industry-leading services and support for both commercial and government customers. His remit covers Asia-Pacific, the Americas, and EMEA.

Prior to this, he was Vice President of Investigative Response at security specialist Cybertrust. As practice leader, his role included acting as the senior computer forensic examiner, managing more than 200 investigations per year, and serving as an expert witness. He has expertise in both the civil and criminal IT elements of an investigation.

Sartin has written articles on a number of security-related topics, ranging from incident response planning to security training and awareness. He is also a course instructor in incident-handling, incident first-response, and fraud analysis. Prior to joining Cybertrust, Sartin was Vice President Enterprise security services at Exenet Technologies.

Sartin holds several security-specific industry certifications and has presented at numerous conferences. These include the Gartner, International Association of Financial Crime Investigators, High Technology Crime Investigation Association, AusCERT, SANS, InfoSec World, and Virus Bulletin.

He holds a Bachelor of Science degree in finance and information systems from Rensselaer Polytechnic Institute in Troy, New York.
