

Peter JL Griffiths
Executive Vice President, Technology and Development Group
CA Technologies

As executive vice president of the Technology and Development Group, Peter Griffiths is responsible for the development of CA Technologies broad portfolio of products and solutions for mainframe, distributed and cloud computing environments. He oversees a world-class global community of about 4000 developers and engineers, which includes the Office of the Chief Technology Officer.

Peter draws on his more than 20 years experience in research and development to lead the Technology and Development Group, which plans, develops and delivers the innovative product offerings that keep CA Technologies at the forefront of the IT industry.

Before joining CA Technologies, Peter was vice president of Worldwide Research and Development Business, Analytics and Applications for IBM. Prior to IBM, Peter served on the executive team at Cognos, Inc. a global leader of business intelligence and performance management software, where he held a number of senior roles, including senior vice president, Products; vice president, Research and Development; and, vice president, Decision Platform.

Peter joined Cognos in 1998 upon its acquisition of Relational Matters PLC, a data analytics company where was CEO. Peter has also held positions at KPMG IT and various organizations in the financial services industry.

Peter earned a Bachelor of Science degree in electrical engineering from Brighton University in England.
