

**Stanton Jones**  
**Analyst, Emerging Technology**  
**ISG**

Stanton uses his unique background in IT to help ISG clients navigate the emerging cloud services landscape through the development of customized cloud strategies and research. Stanton also assists customers in contracting for both on-premise and virtual private cloud platforms.

Prior to his analyst role, Stanton led corporate technology strategy and global IT operations as TPI's Chief Information Officer. Stanton played a key role in leading the transition of TPI into a publicly-traded unit of ISG.

Prior to joining ISG, Stanton served in multiple service delivery roles at a leading direct marketing and customer relationship management agency. In those roles, he supported some of the industry's largest, most-advanced databases for clients across multiple industry verticals. He also held roles in rapid application development, account management and data center operations.

Stanton holds a Bachelor of Arts from The University of Texas at Austin, a Master of Science in Information Systems from The University of St. Thomas, and is a PMP-certified project manager.
