Nokia
gerard.rego@nokia.com

Gerard brings in a strong mix of executive and entrepreneurial diversity from his background over the last 21 years from as CXO, entrepreneur and angel investor & mentor in the tech industry.

He served as VP & GM, India, MSC Software a global leader in the CAE industry and based on his work and learning at the DV Fellowship at Stanford to cofound a biofuel startup and raise over \$5m. This pioneering work became a case study at INSEAD. Gerard's background is in creating, leading & managing supply chains models, business model innovation and services with domain and technology cross-functional teams for new product development/engineering/management. His industry exposure spans Supply Chain, Manufacturing, Renewables, Aerospace & Defense, Automotive, ICT, the internet, CAD/CAM/CAE and Logistics. Gerard was selected as a Reuters Digital Vision Fellow at Stanford University in '06 and a Wharton Fellow in '05. Gerard was selected for the Pune 2006 Super Achievers Award given to outstanding business entrepreneurs and executives. Gerard serves on the Advisory Board of Knowledge@WhartonIndia. Gerard is a Charter Member of TiE Pune Chapter. Gerard's serves as Executive in Residence at INSEAD and selected as Mentor at Singularity University GSP 2012. Gerard is also an angel investor and mentor and serves on the Microsoft Azure Accelerator Program as a mentor. Gerard believes that "Mobility" is the next platform for the coming decade that is happening right now with opportunities in mobile cloud, mobile web, mobile internet of things and mobility around location.

When not at work he is on his Harley Davidson meeting new people and travelling to discover new places, social networks and new ideas.
