

Gaurav Gupta

**Vice President, Engineering
Snapdeal**

For the last 15 years years Gaurav is building enterprise products for datacenters and cloud platforms. He is currently the VP of Engineering and Head of Cloud Platform & Infrastructure at Snapdeal, one of the largest e-commerce companies in India. At Snapdeal he is managing an extremely distributed micro-service architecture and Infrastructure defined as code on top of one of the largest Hybrid Cloud Platform using Openstack and AWS.

Before that Gaurav was the India Head and VP of Engineering of ScaleArc, a bay area startup building DBaaS and before that he was a founding engineer at CloudVelox, a cloud computing startup.

Gaurav holds a Master's degree in Computer Science from University of Maryland, 4 US patents and several IEEE publications.
