

NASSCOM[®]
ANNUAL
TECHNOLOGY
CONFERENCE
PREPARING TO DISRUPT

What is NATC?

- The age of disruption requires continuous innovation and effective use of technology
- **NASSCOM Annual Technology Conference**, the gala event for techies, helps your enterprise leapfrog your competition
- Over the last 3 years, NATC has discussed various tenets of technologies and their applications. This year, we talk about *‘Managing the Disruption’*
- Block your diaries and prepare for an enthralling ride full of insights and innovations with NATC 2017 on November 16 & 17

The Journey of NASSCOM Annual Technology Conference

- **NATC 2013**

The first edition of NASSCOM Annual Technology Conference was kick started, with a focus on emerging technologies. The primary objective was to transgress conventional limits and disperse significant information.

- **NATC 2014**

With technology becoming a game changer in various industries, the second edition of NATC focussed on Key drivers of technology, with special focus on IoT, Big Data and Cloud.

- **NATC 2016**

Given the fast pace of technology disruptions, NATC '16 focussed on 'Preparing to Disrupt' by helping enterprises leverage emerging technologies and build digital enterprises of the future.

Intelligent IoT Systems

Cloud Computing

Internet of Everything

Open Mobile First

Cashless Economy

BigData Products

Government

Datasets

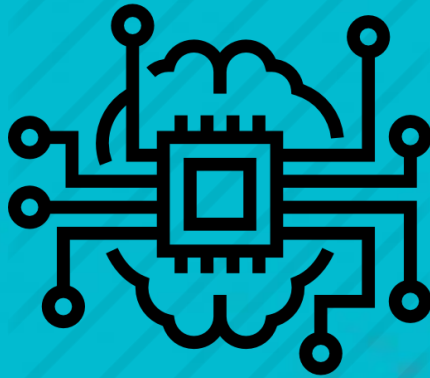

Robotics

MASTERCLASSES

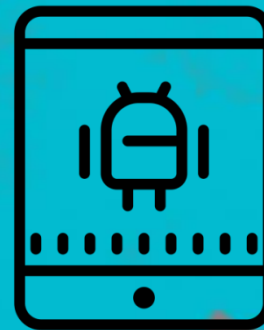

Expand the horizons of your knowledge with NATC.
Discuss and debate about cutting edge technologies with industry leaders.

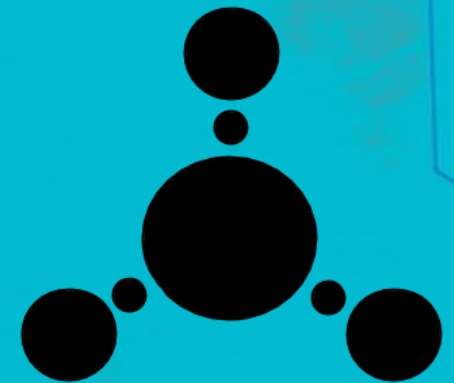

Cloud Computing

Big Data

**Build Android
In KIOSK mode**

**Micro services
Architecture**

SPEAKERS AT NATC 2016

2016: Expert Takeaways

“

I think this conference is about enabling, getting the technology out. It's for people to understand what technology is available. These are the building blocks and this is the new disruptive building block that power the next generation of fabrications. We cannot forever rely on Silicon Valley and other people to give us inputs.

”

**- Maninder Singh Grewal
Dion Global Solutions Ltd**

2016: Expert Takeaways

“ I really liked this event, there have been many enthralling sessions specially the one on Julia Computing by Viral. I am really thinking about how one can build a programming language from scratch. I will take that back with me and encourage my team to research on same.

”

**- Hari Shankar
Amadeus Labs**

SPONSORSHIP OPPORTUNITIES

NASSCOM Annual Technology Conference opens a plethora of opportunities for sponsors. Build your brand visibility with our customized packages.

Branding

Nominate Speakers, host workshops, showcase your brand name at prominent places at the venue, website and e-mailers

Complimentary Delegates

Send complimentary delegates (upto 10), claim special discounts on extra passes

Some more benefits

Include Company Brochures in delegate kits, get leveraged on Social Media/ Venue
